The background of the entire image is a repeating pattern of hummingbirds and pink flowers on a light blue background. The hummingbirds are depicted in various poses, some hovering and some perched on thin branches. The flowers are stylized with soft pink petals and green leaves.

Digital Edge Printing Machine

Digital Edge Printing

A new cutting edge branding solution

Through our cutting-edge digital printing solution you can now expand your customisation options to the edge of your product with full colour printing on the page edges.

Company logos, trademarks, texts and creative designs faithfully reproduced in brilliant colours and eco-friendly inks which will distinguish your brand.

With quantities available as low as 1 book on your specially created design , and sent out in hours, the art of branding is in your hand. That is the advantage of digital color printing.

With refillable ink tank ciss system, ink cost can be ignored no time waste, no ink waste, quick out and colorfull, the most easy way to release your imagination.
